City of Westminster Privately Owned Recreational Vehicle Sanitary Dump Station Guidelines

- Your access card is **REQUIRED** for use of the dump station.
- All units **MUST** use a discharge hose to dump contents of holding tanks.
- Access cards are for use by the owner only and may not be loaned to other users.
- A **\$10 fee** will be charged to replace lost access cards.
- Access cards are good through December 31 of each year. Cards are de-activated on January 1 and can be re-activated by paying the annual fee. Card purchases are not pro-rated.
- The use of normal sanitizing and deodorizing chemicals is allowed. Please remember that the discharge of any other chemicals, wastes, or trash can harm the wastewater treatment facility and is therefore prohibited.
- Discharge is allowed only at the Big Dry Creek Wastewater Treatment Facility located at 13150 Huron Street, Westminster, CO 80234, and in the manner designated by the City of Westminster. The city reserves the right to set and modify the specific times for use of the dump station and to refuse any discharge. Only the discharge of wastewater from the kitchens and personal sanitary conveniences of recreational vehicles is allowed. Failure to comply with these guidelines or Westminster Municipal Code, Title 8, Chapter 10 is subject to administrative and judicial enforcement including fines of up to \$1,000.00 and/or imprisonment of up to one year. Prohibited discharges are also subject to enforcement under state and federal law.
- In consideration for use of the dump station, you agree to defend and indemnify the city from and against all liability, claims and demands, including any third-party claim asserted against the city, on account of any injuries, loss, or damage which arise out of, or are in any way related to, your use of the dump station.
- Closed circuit television has been installed to monitor the station. Access cards will be de-activated if it is determined that the facility has been misused.
- Non-potable water is provided at the dump station to allow for black tank flushing only. Non-potable water is not to be used, taken, or stored for any other use. Unauthorized use of non-potable water may result in access card de-activation.
