

## CONSTRUCTION UPDATES

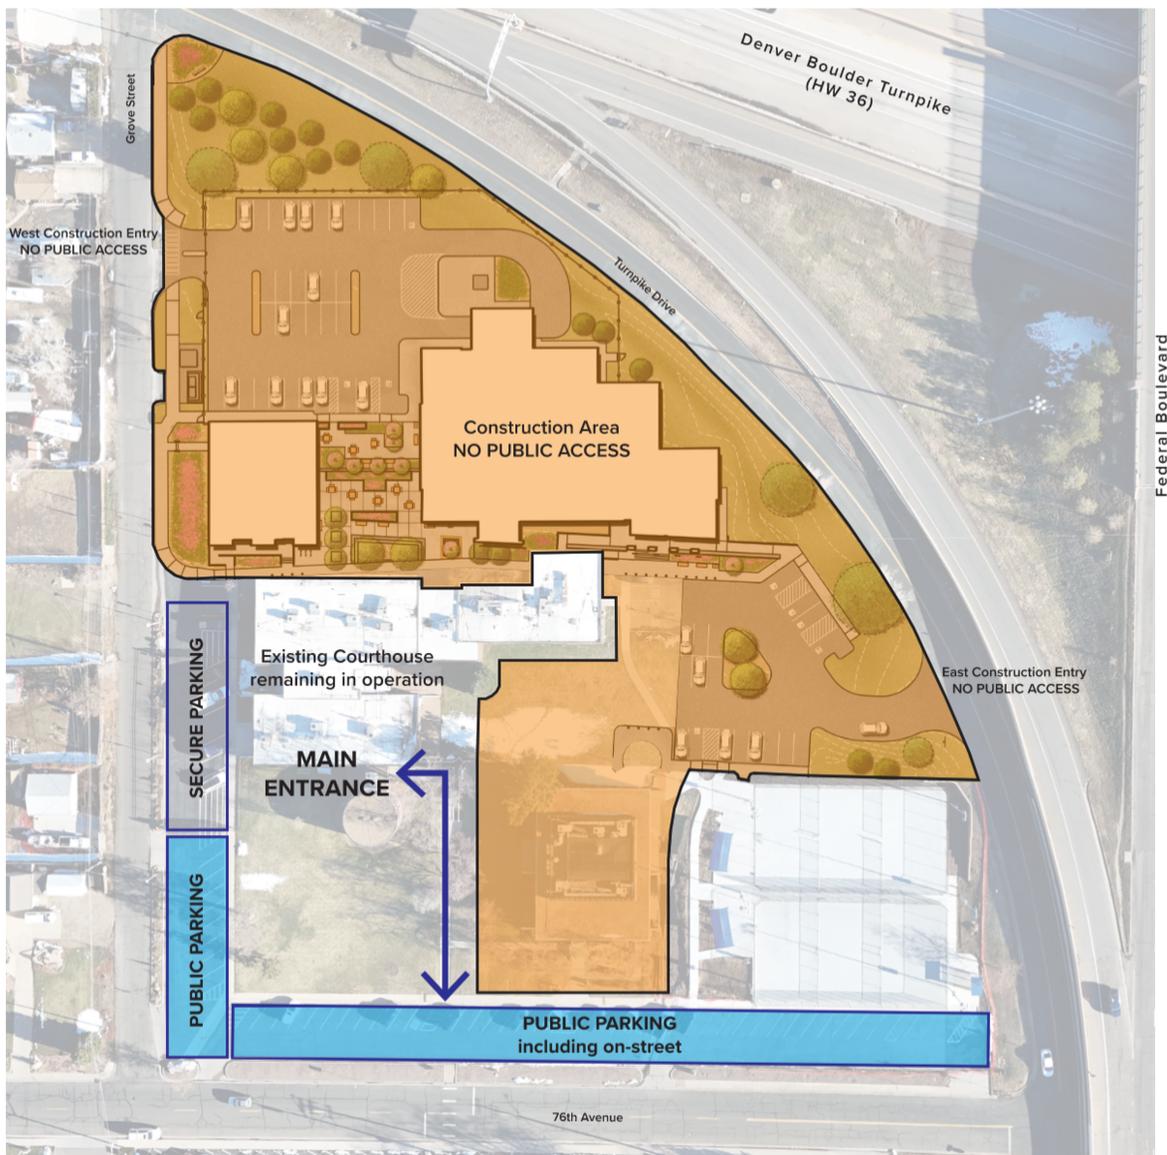

**Project Progress Update: July 14, 2025**

# Construction is starting at the Westminster Municipal Courthouse

As soon as this week, the entrance to the courthouse will be relocated to the south side of the building. Parking is available in the parking lot on the south side of the site and on the street along the north side of 76th Avenue.

Follow the sidewalk to the new front entrance and pass through security before entering the building. This new entrance will remain in place throughout the first phase of construction until the new courthouse is operational and open to the public.

## What to Expect

What to expect the new few weeks:

- Relocation of the main entrance of the Municipal Courthouse building
- Installation of construction fencing around the work site
- Increased construction traffic
- Crews and heavy machinery on site
- Demolition of the north parking lot

## Contact Us

Thank you for signing up for email updates. If you have questions, please feel free to contact the project team at [municourtproject@westminsterco.gov](mailto:municourtproject@westminsterco.gov) or 720-465-5438.

## About the project

The City is replacing the Municipal Courthouse building on Turnpike Drive. The current courthouse is more than 60 years old. Originally constructed as two smaller buildings, which served as City Hall and the police station, the two buildings were merged to form the existing facility over multiple renovations and additions.

Because it wasn't purpose-built as a courthouse, the Court faces many challenges in its daily operations. It lacks standard safety and security features for modern courthouses, and accessibility is inadequate because most of the buildings were constructed before the Americans with Disabilities Act (ADA) was passed.

The new courthouse and a new Community Reach Center building will be built on the existing courthouse's parking lot, which will allow the courthouse to remain fully operational during the anticipated two years of construction.

The City worked closely with neighbors and community members throughout the design process to ensure the courthouse campus reflects community priorities. In addition to a more safe, secure, and accessible courthouse, the site will feature a new park and playground for the community.
