Construction on Federal Parkway begins February

This project will widen the road between 120th and 122nd avenues, creating more consistent travel lanes. The project will also:

- Build a median to separate northbound and southbound lanes
- Install bike lanes
- Add a pedestrian crossing and connection to Big Dry Creek Trail
- Address drainage issues and improve stormwater quality

One lane in each direction will remain open during construction. Business and neighborhood access will be provided at all times, but turning restrictions may be in place during some project phases. Working hours are from 7 am to 6 pm, Monday through Friday. Occasional night work and weekend activities are possible. Project completion is expected in summer 2027.
