

# BIG DRY CREEK STREAMBANK AND CITY PARK POND RESTORATION PROJECT

WESTMINSTER

## POND WORK BEGINS NEAR YOU

Work continues on the Big Dry Creek Restoration Project with work on a water quality pond behind your home.

Construction crews have staked the work area and will begin work mid-June. This work is anticipated to last two months. Crews will work Monday-Friday, 7 a.m.- 5 p.m. You will be notified if any work needs to be completed on the weekend. There may be periodic trail closures. Please stay safe and follow all signage and directions from crews.

The work will not impact your property unless you have landscaping encroaching on the open space.
